THE FRACKERS ARE BACK! Once again, the BLM has offered up 13 new parcels of Greater Chaco Land for oil and gas leasing. One of parcels is within the Rio Chama Watershed boundary! We must raise our voices once more and STOP the sale for the sake of the health of our water and community.

WE CAN DO IT — AGAIN!

The public protest period is **ONLY** between October 22, – October 31st 2018
ONLY written letters are accepted (no emails)
Letters **MUST** be unique – form comments will be rejected

The Rio Chama Watershed sits at the southern edge of the Greater Chaco Region. We have behind us the support of the Chaco Coalition– which brought together RACC & 30 other organizations to make a formal request to hold public hearings regarding the lease sale. **BUT WE CAN'T STOP THERE!** We need to show the BLM that our community wants the Rio Chama Watershed to remain safe and protected as well! Fracking activity in the Rio Chama Watershed area has not occurred since 2012, and with your help we can continue to keep it safe. **CAN YOU GIVE US A FEW MINUTES OF YOUR TIME?**

*Remember: through combined protests from ours and other NM communities with national support
– the BLM Land Lease Sales slated for Feb. 2017 were cancelled by Interior Secretary Ryan Zinke!*
